Keeping watch over our waters since 1994

2025 CORPORATE PARTNERSHIP OPPORTUNITIES

Thank you for your interest in supporting Chattahoochee Riverkeeper! Sponsoring one of our annual events is a great way to engage your employees in our mission and demonstrate your commitment to the Chattahoochee River with marketing benefits. Proceeds from our events help sustain our vital education, outreach, and water monitoring programs. You or your company can also directly fund any of our core programs. Your support will protect and preserve the Chattahoochee River now and for future generations.

SWEEP THE HOOCH

Saturday, March 22, 2025
Chattahoochee Watershed

In 2025, Sweep the Hooch will celebrate 15 years by continuing to host the southeast region's largest one-day, watershed-wide litter cleanup. Sweep hosts more than 60 cleanup sites spread over 200 river miles from the headwaters in Helen, through Atlanta, and down to Columbus. Sweep the Hooch is THE spring cleanup event making a difference in all our communities throughout the Chattahoochee watershed.

In the last 14 years of Sweeping, 12,000 volunteers have removed 268 TONS of trash, tires, and recyclables from parks, creeks, and the river we all share. Of that, more than 32 tons were recycled.

This event is hosted in partnership with local, state, and national organizations and businesses with a presence in the Chattahoochee watershed. We rely on the support of sponsors to host a cleanup of this magnitude.

BECCA SUE KLEIN ALL KIDS FISH

Saturday, May 31 (co-ed), Helen, GA
Summer TBD, Atlanta, GA
Saturday, October 18 (all girls), Helen, GA

The Becca Sue Klein All Kids Fish is an annual program that strives to ignite a passion for fly fishing and conservation in the rising generation of youth. Participants have the opportunity to explore the pristine headwaters region of the Chattahoochee River or the vibrant heart of Atlanta at Piedmont Park. During these day-long, action-packed retreats, anglers aged 10-18 experience a comprehensive curriculum including the art of assembling and casting a fly rod, mastering essential knots, understanding proper gear usage, and acquiring skills for safe fish handling and conservation. Additionally, they gain a deep appreciation for the significance of a healthy watershed in sustaining life.

These events succeed with the support of partner groups and a team of dedicated volunteers. Notable contributors include The Orvis Company, Unicoi Outfitters, Sautee Nacoochee Cultural Center, and Piedmont Park Conservancy. We are also proud to collaborate with international partner United Women on the Fly and nonprofit organizations. By joining forces, we are able to make a profound impact on the lives of young people and students from historically underrepresented communities.

31st Annual
**PATRON
DINNER**

September 19, 2025
Atlanta History Center

Chattahoochee Riverkeeper's Annual Patron Dinner is an affair recognizing the individuals, institutions, and businesses who have made a significant contribution to CRK's mission of protecting the Chattahoochee River. This year's event will look ahead to the river's future, celebrating our youth education and engagement programs that empower the next generation of water stewards. Guests will have access to Atlanta History Center's museum galleries to explore how the city's past might inform the river's future.

This banquet-style event includes a cocktail reception with silent auction, a seated dinner program with awards, the Riverkeeper's highly anticipated "State of the River" address, and a celebratory dessert after-party. The annual Patron Dinner is Chattahoochee Riverkeeper's largest fundraiser of the year, aiming to raise at least 20% of our annual operating budget to support the programs that help ensure enough clean water in the Chattahoochee River for now and future generations.

RIVER RENDEZVOUS

Fall 2025

Every fall, Chattahoochee Riverkeeper works with partners to organize a series of community water-sampling events. These River Rendezvous events help provide a one-day snapshot of water quality in the Chattahoochee River Basin while engaging people in hands-on environmental stewardship.

No previous water monitoring experience is necessary! Volunteers gather for training before heading out to nearby creeks with their sampling kits. After collecting their samples, volunteers return to the starting point for lunch while our staff and interns begin analyzing various water quality parameters.

The series includes: **Headwaters River Rendezvous** in Gainesville, **Westside River Rendezvous** in Atlanta, and **Columbus River Rendezvous** in Columbus. These events are fun, family-friendly opportunities to demonstrate that we all have a hand in protecting our water resources. Your support helps ensure the success of these events.

Scan here or visit chattahoochee.org/river-rendezvous to learn more about the River Rendezvous series. Questions? Email jsterling@chattahoochee.org.

Our Programs

You or your company may choose to forgo an event sponsorship in favor of directly funding one of Chattahoochee Riverkeeper's core programs. Learn more about our programs below. Marketing benefits may be coordinated at the funder's request.

Fund one of CRK's core programs

Floating Classroom
Trash-Free Chattahoochee
Neighborhood Water Watch

Please contact Kyndall Thiessen at kthiessen@chattahoochee.org with questions about our programs.

Floating Classroom

Chattahoochee Riverkeeper operates the only two floating classrooms in Georgia: the Lake Lanier Aquatic Learning Center and the West Point Lake Floating Classroom. The program engages students through a STEM-based, hands-on science curriculum that is tailored for each grade level and meets state education performance standards.

Each year, around 8,000 students join us for an outing! For some, it's their first time on the water. Our goal is to offer the program to as many participants as possible regardless of their ability to pay. **Your contribution will fund scholarships for students from Title I schools and community-based programs for low-income families to experience the floating classroom program (scholarships are \$35/student).**

Trash-Free Chattahoochee

The volume of garbage in our rivers, lakes, and oceans is a global crisis. For more than three decades, Chattahoochee Riverkeeper has carried out an ever-growing Trash-Free Chattahoochee campaign to rid our watershed

Each year, **8,000 students** join us for an outing.

CRK's trash traps have collected over **15,000 pounds** of floating trash.

CONTINUED ON NEXT PAGE

CONTINUED FROM PREVIOUS PAGE

of trash, tires, and recyclables. We employ devices called “trash traps” to remove floating litter from tributaries of Chattahoochee River. Since the program’s inception in 2019, CRK’s trash traps have collected over 15,000 pounds of floating trash. Approximately 40% of the volume of collected trash is recycled. **\$5,000 will help maintain a trash trap for one year.**

We have also organized hundreds of volunteer cleanups and more than 20,000 volunteers have removed more than three million pounds of trash and recyclables from the watershed. **Your support will sustain this effort in 2025.**

Your company can also choose to host a private cleanup project for your employees. The fee for a private cleanup is \$1,500; please contact Tammy Bates at tbates@chattahoochee.org to arrange.

Neighborhood Water Watch

Neighborhood Water Watch is a collaborative program between CRK and neighborhood groups, schools, and individual volunteers in our watershed.

Volunteers collect water samples from more than 200 sites on the river, lakes, and creeks each week and bring them to one of our four laboratories located in Atlanta, Columbus, Gainesville, and LaGrange. Once there, water samples are analyzed for bacteria that may indicate pollution or other water quality issues. The data is then made available to the public on our website. Any threats indicated – such as sediment pollution or unsafe bacteria levels – are addressed by CRK, as we work with local utilities, local governments, neighborhood groups, and community leaders to stop these public health threats.

Your support will keep our laboratories stocked with supplies, equip our volunteer sample kits and training, and provide CRK staff with the resources to track down pollution in our waterways.

LOGO SUBMISSION GUIDELINES

Thank you for wanting to partner with Chattahoochee Riverkeeper!

We value all members of the Chattahoochee community that want to support our work to protect this crucial liquid lifeline. We also take deep pride in our sponsors, and want to ensure that we are able to display your brand as intended and by design. To ensure your logo displays properly in all the assets you are entitled to, we've put together a few logo submission tips below.

Please submit two versions of your logo, one in full-color and one in monochrome (black and white).

Full-color example

Monochrome example

Please submit your logo as a vector file.

Vectors are scalable (not rasterized, or "flat") and ensure your logo will display properly at all sizes. Acceptable vector file types are listed below:
